

**Jim Thomas, PMP, IAM III, CSM**

President and Senior Program Manager at ExecuSys

As the Founder and President of ExecuSys, I have over 30 years of leadership experience providing exceptional program management, technical services, and innovative solutions within the healthcare and aerospace industries, driven by a passion for advancing technology to improve lives. My career is distinguished by a proven ability to lead large-scale federal and commercial technology programs leveraging the latest technology and both the waterfall and agile/scrum development methodologies.

**Key Strengths:**

**Leadership Excellence:** Proven track record of building and mentoring talented teams that consistently exceed customer expectations.

**Program Management Expertise:** Extensive experience in the full spectrum of program, project, and performance management, including detailed knowledge of performance metrics and earned value management systems (EVMS).

**Collaborative Approach:** A demonstrated ability to effectively communicate with senior management, clients, and project teams, ensuring seamless communication and project success.

**Adaptability:** Quickly adapt to changing environments using situational leadership and collaborative skills. My professional journey began at Martin-Marietta Aerospace in Orlando, where I contributed to the Pershing II Missile and ADATS programs. I then transitioned to Kennedy Space Center (KSC) to work on the Space Shuttle program. At Lockheed Space Operations Company (LOSC), I led a team that obtained a tri-service Cost/Schedule Control System certification at Vandenberg AFB. After returning to KSC, my team developed the NASA KSC Ground Operations Cost Model (GOCM) and the USAF 45<sup>th</sup> Space Wing Range Operations Cost Model (ROCM) – leading to the founding of ExecuSys.

**Notable Program and System Highlights**

- 45<sup>th</sup> SW Launch Operations Support Contract Close-out (2018 - 2025)
- Eunice Kennedy Shriver NICHD CRPDS (exceptional CPARS, 2021 - 2023)
- Defense Media Activity (DMA) AFN-Now (achieved Authority-to-Operate in 2022)
- US Special Operations Command (USSOCOM) Warrior Care Coalition
- AHLTA Composite Health Care System (worldwide military EHR system)

- Defense Health Agency - Global Service Center (24/7/365 Service Desk)
- 45<sup>th</sup> SW Launch Operations Support Contract (2005 - 2018)
- Human Dimensions Service Support (HDSS) Wounded, Ill and Injured
- 45<sup>th</sup> SW Launch Ordnance Information System (achieved Cybersecurity ATO in 2018)
- 45<sup>th</sup> SW Spaceport Information System
- USAF & NASA J-BOSC Financial Management Decision Support System
- BP Amoco Decision Support System
- 45<sup>th</sup> SW ERTS & LOSC Performance Management Systems
- USAF 45<sup>th</sup> SW Comptroller Financial Information System (CFIS)
- USAF 45<sup>th</sup> SW Range Operations Cost Model (ROCM)
- NASA KSC Ground Operations Cost Model (GOCM)
- Lockheed Tri-service Cost/Schedule Control System (Vandenberg AFB)
- Space Station Technical and Management Information System (TMIS)
- Space Shuttle Cargo Processing System
